

I play a lot of sports including the following and my skill levels:

- Swimming: I have been swimming since I was 6 years old, and I swam competitively at several different clubs from 8 years old to 14 years old. I swam in my high school team all four years and I captained it in my senior year, when we won our regional championship and placed high at cities. I swim freestyle mainly, but I also swam medley and relays.
- Baseball: I have played for my whole life, playing in several teams outside of school and winning the championship in the U18 age group. I also played in middle school through high school, and in high school in my senior year we won the city championship.
- Hockey: I started skating when I was 10, but never played any organized hockey. I am often at the local outdoor rink playing shinny with friends and others in the community.
- Badminton: I played in a badminton club from when I was 10 to 14, but I never took it seriously enough to take it to the next level. Badminton is now just a fun hobby that I enjoy spending time playing with friends.
- Golf: I have taken over 5 years of golf lessons, and I still play several times a week. I don't take golf too seriously, it's a fun hobby to spend time with friends. Please don't ask me about my handicap.

Some other hobbies I enjoy:

- Cooking: I was inspired a couple years ago after binge watching masterchef to start cooking, and I have been cooking a lot ever since. I have a lot of food pictures that I made on my personal instagram page @ken.wu94 and I also bake a lot too.
- Food blogging: I was ranked in the top 1% of food reviewers on Google in 2024, and I enjoy exploring new foods and well-known restaurants around the city. I am currently trying to work my way through the Toronto Michelin guide, and I have experienced about one third of the guide. Photos of restaurants I try can be found on my personal instagram @ken.wu94.
- Video games: I play mainly Counter-Strike 2, at a pretty high rank, ranking in the top 1000 players. I play on an ESEA Main team and we occasionally fly out to LAN tournaments to play. I'm always excited to play with new people, so if you would like to play games with me, my Discord is @kenzw, and my Counter-Strike 2 Instagram page is @kenzwoocs.
- Music: I play several instruments, the trombone, flute, but mainly guitar. I play several different styles: mainly classical guitar, I also do fingerstyle guitar and I have been learning electric guitar recently. My covers can be found on my Instagram page @kwscvrs.
- Video editing: I spent some time learning how to use Adobe Creative Cloud apps to create videos, and my videos can be found on my Youtube @kenzwoo
- Photography: I occasionally try taking some nice photos, and I post them on my Instagram page @wuuk_photos.
